MANAGEMENT'S DISCUSSION AND ANALYSIS

(Unaudited)

Old Dominion University is a comprehensive, multicultural, and student-centered doctoral research university whose central mission is to provide students with the best education possible. The University's seven colleges--Arts and Letters, Business, Continuing Education and Professional Development, Education, Engineering and Technology, Health Sciences and Sciences--offer 70 baccalaureate programs, 54 master's programs, two education specialist programs, 42 doctoral programs and an award-winning distance learning program. The University provides a world-class education to more than 24,800 undergraduate and graduate students from all 50 states and 104 countries and has a strong global network of 127,000 alumni. This year, Old Dominion opened the Strome Entrepreneurial Center to empower students from any academic discipline to turn their idea into an enterprise and create great economic and social value in our region and beyond.

The University's local, regional and national impact continues to grow. Our entrepreneurial approach drives research and collaboration, and as measured by the Virginia Business Higher Education Council, the University contributes \$2.1 billion annually to the Hampton Roads economy. Old Dominion University is one of the largest generators of new jobs in the region. Not only do we educate the workforce of tomorrow, but Old Dominion University's Veterans Business Outreach Center is taking a leading role in training veteran entrepreneurs and retaining veteran-owned small business enterprises in our region. The University is also committed to providing research-driven solutions. Our world-class researchers partner with business, industry, government and investment leaders to create answers for society's most pressing challenges. Old Dominion University has made great strides in advancing research and innovation, including our internationally renowned areas of strength in modeling and simulation, bioelectrics, maritime, ports and logistics, nanotechnologies, sea level rise, and alternative energies. Currently we are working on more than 400 projects at our 26 research centers across the state. These initiatives, such as Old Dominion's modeling and simulation, not only fill a vital need in the workforce, but they are propelling job creation and economic growth by tying in nicely into regional strengths—federal labs, the port, military, Chesapeake Bay and health care.

As an agency of the Commonwealth of Virginia, Old Dominion is included as a component unit in the Commonwealth of Virginia's *Comprehensive Annual Financial Report*. The 17 members of Old Dominion University's Board of Visitors, whom are appointed by the Governor of Virginia, govern University operations.

Overview of the Financial Statements and Financial Analysis

The Management's Discussion and Analysis (MD&A) is required supplemental information under the Governmental Accounting Standards Board (GASB) reporting model. It is designed to assist readers in understanding the accompanying financial statements and provides an objective, easily readable analysis of Old Dominion University's financial activities based on currently known facts, decisions, and conditions. This discussion includes an analysis of the University's financial condition and results of operations for the fiscal year ended June 30, 2014. Note that although the University's foundations identified as component units under GASB Statement 61 are reported in the financial statements, they are excluded from this MD&A, except where specifically noted. Comparative numbers, where presented, are for the fiscal year ended June 30, 2013. Since this presentation includes highly summarized data, it should be read in conjunction with the accompanying financial statements, Notes to the Financial Statements, and other supplemental information. University management is responsible for all of the financial information presented, including this discussion and analysis.

The three basic financial statements are the Statement of Net Position (balance sheet), the Statement of Revenues, Expenses and Changes in Net Position (operating statement), and the Statement of Cash Flows. The following analysis discusses elements from each of these statements, as well as an overview of the University's activities.

Statement of Net Position

The Statement of Net Position presents the University's assets, deferred outflows, liabilities, deferred inflows and net position as of the end of the fiscal year. The purpose of this statement is to present to the financial statement readers a snapshot of the University's financial position at year-end. From the data presented, readers of the Statement of Net Position are able to determine the assets available to continue the University's operations. They are also able to determine how much the University owes vendors and creditors.

Net position is divided into three major categories. The first category, net investment in capital assets, provides the University's equity in property, plant, and equipment owned by the University. The next category is restricted which is divided into two categories in the financial statements, nonexpendable and expendable. Restricted nonexpendable net position consists solely of the University's permanent endowment funds and is only available for investment purposes. Expendable restricted net position is available for expenditure by the institution but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on them. The final category is unrestricted net position which is available to the institution for any lawful purpose of the institution.

Condensed Summary of Net Position (amounts in thousands)

	As of June 30, 2014	2013	Increase / (Decrease)	Percent Change
<u>Assets and deferred outflows:</u>				
Current	\$ 111,968	\$ 103,619	\$ 8,349	8.1%
Capital, net of accumulated depreciation	577,263	561,768	15,495	2.8%
Other noncurrent	42,079	42,036	43	0.1%
Deferred outflows of resources	4,297	4,267	30	0.7%
Total assets & deferred outflows	<u>735,607</u>	<u>711,690</u>	<u>23,917</u>	<u>3.4%</u>
<u>Liabilities and deferred inflows:</u>				
Current	73,095	74,672	(1,577)	(2.1)%
Noncurrent	234,916	249,535	(14,619)	(5.9)%
Deferred inflows of resources	-	-	-	0.0%
Total liabilities & deferred inflows	<u>308,011</u>	<u>324,207</u>	<u>(16,196)</u>	<u>(5.0)%</u>
<u>Net position:</u>				
Net investment in capital assets	336,748	307,191	29,557	9.6 %
Restricted	28,390	28,644	(254)	(0.9)%
Unrestricted	62,458	51,648	10,810	20.9 %
Total net position	<u>\$ 427,596</u>	<u>\$ 387,483</u>	<u>\$ 40,113</u>	<u>10.4 %</u>

The University's financial position remained strong at the end of fiscal year 2014 with an increase in total assets and deferred outflows of \$24.0 million or 3.4%. The growth in current assets of \$8.3 million or 8.1% was a result of an increase in auxiliary cash and accounts receivable offset by a decrease in the monies due from the Commonwealth for reimbursement bond programs. Current liabilities decreased 2.1% or \$1.6 million due to a reduction in unearned revenue. Noncurrent liabilities decreased \$14.6 million or 5.9% due to the normal payment of debt, while total University liabilities and deferred inflows decreased \$16.2 million or 5.0%. The overall financial position of the University improved over the prior fiscal year as evidenced by the growth in net position of \$40.1 million or 10.4%.

Statement of Revenues, Expenses and Changes in Net Position

Changes in total net position as presented on the Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses and Changes in Net Position. The purpose of the statement is to present the revenues received by the University, both operating and nonoperating, and the expenses paid by the University, operating and nonoperating, and any other revenues, expenses, gains and losses received or spent by the University.

Generally, operating revenues are received for providing goods and services to students and other constituencies of the institution. Operating expenses are those expenses incurred to acquire or produce the goods and services provided in return for the operating revenues and to carry out the University's mission. Salaries and fringe benefits for faculty and staff are the largest type of operating expense.

Nonoperating revenues are revenues received for which goods and services are not provided. For example, the University's state appropriations are nonoperating because they are provided by the state legislature without the legislature directly receiving commensurate goods and services for those revenues.

Condensed Summary of Revenues, Expenses and Changes in Net Position (amounts in thousands)

	2014	2013	(Decrease)	Change
<u>Operating revenues:</u>				
Student tuition and fees	\$ 130,358	\$ 120,047	\$ 10,311	8.6 %
Federal grants and contracts	5,039	4,808	231	4.8 %
State, local & nongovernmental grants	1,711	2,528	(817)	(32.3)%
Auxiliary enterprises	103,690	95,981	7,709	8.0 %
Other operating revenues	4,312	4,581	(269)	(5.9)%
Total operating revenues	245,110	227,945	17,165	7.5 %
<u>Operating expenses:</u>				
Instruction	144,895	135,599	9,296	6.9 %
Research	9,561	7,773	1,788	23.0 %
Public service	663	444	219	49.3 %
Academic support	43,745	42,130	1,615	3.8 %
Student services	15,614	14,351	1,263	8.8 %
Institutional support	28,176	28,346	(170)	(0.6)%
Operation and maintenance	26,985	26,202	783	3.0 %
Depreciation	23,008	22,577	431	1.9 %
Scholarships and fellowships	19,077	17,711	1,366	7.7 %
Auxiliary activities	88,834	80,774	8,060	10.0 %
Total operating expenses	400,558	375,907	24,651	6.6 %
Operating loss	(155,448)	(147,962)	7,486	5.1 %
Net nonoperating revenues and expenses	161,205	147,708	13,497	9.1 %
Income before other revenues/ (expenses)/gains/(losses)	5,757	(254)	6,011	2366.5%
Net other revenues and expenses	34,356	22,358	11,998	53.7 %
Increase in net position	40,113	22,104	18,009	81.5 %
Net position - beginning of year	388,332	366,228	22,104	6.0 %
Net effect of change (Note 2)	(849)	-	(849)	100.0 %
Net position - beginning of year as restated	387,483	366,228	21,255	5.8 %
Net position - end of year	\$ 427,596	\$ 388,332	\$ 39,264	10.1 %

The largest components of total operating revenue are primarily student tuition and fees which increased \$10.3 million or 8.6% and auxiliary enterprise revenue which increased by \$7.7 million or 8.0% from the prior fiscal year. The growth in revenue was due to the rise in both in-state and out-of-state tuition rates and increases in auxiliary enterprise charges. The overall increase in nonoperating revenue of \$12.6 million or 7.9% was a result of increased funding from the Commonwealth through appropriations for base operating support, an increase in Pell grant revenue, gifts and investment income. Finally, other revenues increased \$11.9 million or 52.6% as a result of additional funding from the 21st Century Bond Program and capital gifts for ongoing campus construction.

Operating expenses increased \$24.7 million or 6.6% in response to various factors including establishment of additional faculty, administrative and staff positions, and faculty promotions. Faculty and staff received a 3% salary increase. Classified staff received compression adjustments and, in an effort to retain well qualified faculty and staff, an additional 1% was granted. Student financial assistance expenses increased as a result of additional financial aid and scholarship funding for undergraduate students.

Statement of Cash Flows

The Statement of Cash Flows provides relevant information that aids in the assessment of the University's ability to generate cash to meet present and future obligations and detailed information reflecting the University's sources and uses of cash during the fiscal year. The statement is divided into five sections. The first section deals with operating cash flows and reflects the sources and uses to support the essential mission of the University. The primary sources are tuition and fees (\$142.3 million) and auxiliary enterprises (\$117.2 million). The primary uses are payments to employees including salaries, wages, and fringe benefits (\$228.3 million) and payments to vendors (\$96.9 million).

The second section reflects the cash flows from non-capital financing activities and reflects nonoperating sources and uses of cash primarily to support operations. The primary sources are state appropriations (\$130.0 million) and gifts and grants (\$40.6 million).

The third section represents cash flows from capital financing activities and details the activities related to the acquisition and construction of capital assets including related debt payments. The primary source of funds is proceeds from reimbursements from the Commonwealth (\$28.4 million) and capital gifts (\$6.4 million). The primary uses are purchases of capital assets (\$37.3 million) and principal and interest paid on capital debt (\$25.2 million).

The fourth section deals with cash flows from investing activities and includes interest on investments and sale of investments. The primary source was interest on investments and cash management (\$1.0 million). The last section, which is not included below, reconciles the net cash used by operating activities to the operating loss reflected on the Statement of Revenues, Expenses and Changes in Net Position.

Summary Statement of Cash Flows

(amounts in thousands)

	Year ended June 30,		Increase /	Percent
	2014	2013	(Decrease)	Change
Cash flows from operating activities	\$ (136,699)	\$ (121,914)	\$ (14,785)	(12.1)%
Cash flows from non-capital financing	171,067	157,847	13,220	8.4 %
Cash flows from capital financing activities	(29,650)	(34,991)	5,341	(15.3)%
Cash flows from investing activities	1,018	959	59	6.2 %
Net change in cash	<u>\$ 5,736</u>	<u>\$ 1,901</u>	<u>\$ 3,835</u>	<u>201.7 %</u>

Capital Asset and Debt Administration

The University continues to maintain and upgrade current structures, as well as adding new facilities. Investment in the development and renewal of capital assets is one of the key factors in sustaining the high quality of the University's academic, research, and residential life functions. Overall, funds invested in capital assets reflect the ongoing campus construction as indicated in Note 6. In addition to buildings, capital asset additions for June 30, 2014 include increases of \$13.7 million in equipment and \$1.0 million in library books.

Several ongoing capital projects were added and completed during the fiscal year which resulted in a net decrease in construction in progress of \$17.9 million. New additions to construction in progress include the System Research and Academic building, Consolidated Arts Complex and the Education building. Projects were financed through issuance of General Obligation and revenue bonds and capital gifts.

Financial stewardship requires effective management of resources, including the use of long-term debt to finance capital projects. The University's long-term debt decreased \$14.3 million as reflected in Notes 8 and 9. The decrease is the result of normal payment of existing debt.

Uncompleted construction and other related contractual commitments decreased from \$8.8 million at June 30, 2013 to \$4.9 million at June 30, 2014, as reflected in Note 13. These obligations are for future efforts and therefore have not been accrued as expenses or liabilities on the University's financial statements. The decrease is primarily the result of ongoing projects for System Research and Academic building and Consolidated Arts Complex.

Economic Outlook

The passage of the Virginia Higher Education Opportunity Act by the 2011 Session of the General Assembly speaks to the importance of policy goals of increasing accessibility and enrollments in high-demand disciplines such as Science, Technology, Engineering, and Mathematics (STEM) and the number of restructuring initiatives to enhance progress in promoting higher education opportunities. Old Dominion ranks third in the production of STEM programs. To further assess institutional performance, Chapter 2, 2014 Virginia Acts of Assembly, Special Session I included a requirement in the General Provisions to assess and certify institutional performance annually on several financial and administrative standards. The State Council of Higher Education (SCHEV) recently certified that Old Dominion University passed all the standards. Financial benefits provided to each institution will be evaluated in light of the institution's performance. While all Virginia universities are faced with the challenge of containing costs through business process improvements and efficiencies, they must also provide a quality education to students with limited state general fund support at affordable tuition prices. Old Dominion University's tuition and fees are the lowest of all the Virginia doctoral institutions.

Budget actions taken by the Governor and General Assembly to address a projected revenue shortfall of \$1.5 billion removed all new general funds from higher education institutions and state agencies for the 2014-2016 biennium and the funding levels reverted to the 2012-2014 biennial appropriation. Subsequently, the Commonwealth's anticipated shortfall increased to \$2.4 billion and additional budget reductions of \$881 million were necessary. Consequently, all state agencies and higher education institutions were required to submit budget reduction plans totaling 5 and 7 percent for fiscal years 2015 and 2016 respectively. Recently, the General Assembly acknowledged the funding differences among the higher education institutions and introduced House Bill 5010, which prorated the annual reduction target for Old Dominion University to \$2.2 million or 2.1% for the 2014-2016 biennium.

With the uncertainty of the state budget process, the University's budget and planning process was impacted. The 2014-2015 Budget and Plan presented to the Board in June 2014 included the addition of \$15.3 million of new general and central funds and \$7 million in tuition and fee revenue with the understanding that an amended budget would be presented at the September 2014 Board meeting. The amended budget which included the net loss of \$12.9 million in general and central funds addressed the mandatory health and retirement benefit costs for faculty and staff, faculty promotions, operations and maintenance of new facilities as well as mandated increases in utilities, contracts and lease costs, leaving limited uncommitted resources available for investments in new initiatives.

Those investments, totaling approximately \$2 million, were allocated on a one-time basis and were grouped into the following major success critical categories:

1. Academic Enterprise (Instruction, Research, Public Service and Academic Support)
2. Student Recruitment and Enrollment Management
3. Campus Infrastructure
4. Campus Life and Student Retention

In addition, \$1.8 million was set aside for one-time compensation adjustments for full- and part-time faculty and staff.

Although the fiscal situation has provided some challenges in this year's budget process, Old Dominion University will continue to manage its resources and position itself to continue its pursuit of excellence in teaching, research, entrepreneurship and public service.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Old Dominion University (the University) is a comprehensive university that is part of the Commonwealth of Virginia's statewide system of public higher education. The University's Board of Visitors, appointed by the Governor, is responsible for overseeing governance of the University. A separate report is prepared for the Commonwealth which includes all agencies, higher education institutions, boards, commissions, and authorities over which the Commonwealth exercises or has the ability to exercise oversight authority. The University is a component unit of the Commonwealth of Virginia and is included in the basic financial statements of the Commonwealth.

The University includes all entities over which the University exercises or has the ability to exercise oversight authority for financial reporting purposes. Under Governmental Accounting Standards Board (GASB) Statement 61 standards, the Old Dominion University Educational and Real Estate Foundations, the Old Dominion Athletic Foundation, and the Old Dominion University Research Foundation (the Foundations) are included as component units of the University. These foundations are legally separate and tax-exempt organizations formed to promote the achievements and further the aims and purposes of the University.

The Educational and Real Estate Foundations receive, administer, and distribute gifts for the furtherance of educational activities and objectives of the University. The Athletic Foundation receives, administers, and distributes gifts for the furtherance of educational and athletic activities of the University. For additional information on these foundations, contact Foundation Offices at 4417 Monarch Way, 4th Floor, Norfolk, Virginia 23529. The Educational and Real Estate and Athletic Foundations have adopted December 31 as their year-end. All amounts reflected are as of December 31, 2013. The Research Foundation coordinates and accounts for substantially all grants and contracts awarded for research at the University. For additional information contact the Research Foundation at 4111 Monarch Way, Suite 204, Norfolk, Virginia 23508.

Although the University does not control the timing or amount of receipts from the Foundations, the majority of resources or income thereon that the Foundations hold and invest is restricted to the activities of the University by the donors. Because these restricted resources held by the Foundations can only be used by or for the benefit of the University, the Foundations are considered component units of the University and are discretely presented in the financial statements.

Basis of Presentation

The University's accounting policies conform with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), in the Codification of Governmental Accounting and Financial Reporting Standards. The University follows accounting and reporting standards for reporting by special-purpose governments engaged only in business-type activities.

The Foundations are private, nonprofit organizations, and as such the financial statement presentation follows the recommendation of accounting literature related to nonprofits. As a result, certain revenue recognition criteria and presentation features are different from GASB revenue recognition and presentation features. No modifications have been made to the Foundations' financial information in the University's financial reporting entity for these differences.

In March 2012, the GASB issued Statement 65, *Items Previously Reported as Assets and Liabilities*, effective for the University's fiscal year beginning July 1, 2013. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities.

Basis of Accounting

For reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, its statements have been presented using the economic resource measurement focus and the accrual basis of accounting; whereby, revenues are recognized when earned and expenses are recorded when an obligation has been incurred, regardless of the timing of related cash flows. All intra-agency transactions have been eliminated.

Cash and Cash Equivalents

In accordance with the GASB Statement 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, definition, cash and cash equivalents consist of cash on hand, money market funds, and temporary highly liquid investments with an original maturity of three months or less.

Investments

The University accounts for its investments that are purchased at fair value. Investments received by gift are carried at fair value at date of acquisition in accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, as modified by GASB Statement 59. All investment income, including changes in the fair value of investments (unrealized gains and losses), is reported as nonoperating revenue in the Statement of Revenues, Expenses and Changes in Net Position.

Receivables

Receivables consist of tuition and fee charges to students and auxiliary enterprises' sales and services. Receivables also include amounts due from the federal, state, and local governments or private sources in connection with reimbursement of allowable expenditures made pursuant to grants and contracts. Receivables are recorded net of estimated uncollectible amounts.

Prepaid Expenses

The University's prepaid expenses include memberships, subscriptions, maintenance and support, lease payments, and insurance payments for fiscal year 2015 that were paid in advance as of June 30, 2014.

Inventories

Inventories are valued at the lower of cost (generally determined on the first-in, first-out method) or market, and consist primarily of expendable supplies held for consumption.

Noncurrent Cash and Investments

Cash and investments that are externally restricted to make debt service payments, reserve funds, or purchase or construct capital and other noncurrent assets, are classified as noncurrent assets in the Statement of Net Position.

Capital Assets

Capital assets include land, buildings and other improvements, library materials, equipment, intangibles, and infrastructure assets such as campus lighting. Capital assets generally are defined by the University as assets with an estimated useful life in excess of one year and an initial cost of \$5,000 or more, except for computer software which is capitalized at a cost of \$100,000. Other assets are recorded at actual cost or estimated historical cost if purchased or constructed. Library materials are valued using published average prices for library acquisitions. Donated capital assets are recorded at the estimated fair market value at the date of donation, with the exception of intra-entity capital asset donations which, in accordance with GASB Statement 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, are recorded at the carrying value of the asset on the transferor's books as of the date of transfer. Expenses for major capital assets and improvements (construction in progress) are capitalized as projects are constructed. Interest expense of \$31,500 relating to construction is capitalized net of interest income earned on resources set aside for this purpose for the year ended June 30, 2014. The costs of normal maintenance and repairs that do not add to an asset's value or materially extend its useful life are not capitalized. Certain maintenance and replacement reserves have been established to fund costs relating to residences and other auxiliary activities.

Depreciation is computed using the straight-line method over the estimated useful life of the asset and is not allocated to the functional expense categories. Useful lives by asset categories are listed below:

Buildings	5-50 years
Other improvements and infrastructure	2-30 years
Equipment	2-25 years
Library materials	5 years
Intangible assets	3-25 years

Accrued Compensated Absences

Accrued leave reflected in the accompanying financial statements represents the amount of annual, sick, and compensatory leave earned but not taken as of June 30, 2014. The amount reflects all earned vacation, sick, and compensatory leave payable under the Commonwealth of Virginia's leave pay-out policy and the University's faculty administrators' leave pay-out policy upon employment termination. The applicable share of employer related taxes payable on the eventual termination payments is also included.

Unearned Revenue

Unearned revenue primarily includes amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year, but related to the period after June 30, 2014.

Noncurrent Liabilities

Noncurrent liabilities include principal amounts of bonds payable, notes payable, and capital lease obligations with contractual maturities greater than one year as well as estimated amounts for accrued compensated absences that will not be paid within the next fiscal year.

Discounts, Premiums, and Bond Issuance Costs

Bonds payable on the Statement of Net Position are reported net of related discounts and premiums, which are amortized over the life of the bond. Bond issuance costs are no longer capitalized. In accordance with GASB Statement 65, *Items Previously Reported as Assets and Liabilities*, the costs are now expensed as nonoperating expenses.

Net Position

GASB Statements 34 and 63 require that the Statement of Net Position report all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position. Net position is the difference between all other elements in a statement of net position and should be displayed in three components. Accordingly, the University's net position is classified as follows:

Net Investment in Capital Assets consists of total investments in capital assets, net accumulated depreciation and outstanding debt obligations.

Restricted Net Position:

Nonexpendable includes endowment and similar type assets whose use is limited by donors or other outside sources and as a condition of the gift, the principal is to be maintained in perpetuity.

Expendable represents funds that have been received for specific purposes and the University is legally or contractually obligated to spend the resources in accordance with restrictions imposed by external parties.

Unrestricted Net Position represents resources derived from student tuition and fees, state appropriations, unrestricted gifts, interest income, and sales and services of educational departments and auxiliary enterprises.

Classification of Revenues and Expenses

Operating revenues include activities that have the characteristics of exchange transactions, such as: (1) student tuition and fees, net of scholarship allowances; (2) sales and services of auxiliary enterprises, net of scholarship allowances; and (3) federal, state, and nongovernmental grants and contracts.

Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and other revenue sources that are defined as nonoperating revenues by GASB Statement 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement 34, such as state appropriations, investment, and interest income.

Nonoperating expenses primarily include interest on debt related to the purchase of capital assets and losses on the disposal of capital assets. All other expenses are classified as operating expenses.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the University's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. Restricted funds remain classified as such until restrictions have been satisfied.

Scholarship Allowances

Student tuition and fee revenues and certain other revenues from charges to students are reported net of scholarship allowances in the Statement of Revenues, Expenses and Changes in Net Position. Scholarship allowances are the differences between the actual charge for goods and services provided by the University and the amounts that are paid by students and/or third parties on the students' behalf. Financial aid to students is reported in the financial statements under the alternative method as prescribed by the National Association of College and University Business Officers (NACUBO). The alternative method is a simple proportionality algorithm that computes scholarship discounts and allowances on a university-wide basis by allocating the cash payments to students, excluding payments for services, on the ratio of total aid to the aid not considered to be third party aid.

Student financial assistance grants and other federal, state, or nongovernmental programs are recorded as either operating or nonoperating revenues in the accompanying Statement of Revenues, Expenses and Changes in Net Position. To the extent that revenues from these programs are used to satisfy tuition, fees, and other charges, the University has recorded a scholarship allowance.

Federal Financial Assistance Programs

The University participates in federally funded Pell Grants, Supplemental Educational Opportunity Grants (SEOG), Federal Work-Study, Perkins Loans, Stafford Loans, Parent Loans for Undergraduate Students (PLUS), and Teacher Education Assistance for College and Higher Education grants (TEACH). Federal programs are audited in accordance with generally accepted governmental auditing standards.

NOTE 2: RESTATEMENT OF NET POSITION

Beginning net position was adjusted to reflect the implementation of GASB Statement 65, *Items Previously Reported as Assets and Liabilities*.

Net position balance as previously reported at June 30, 2013	\$ 388,331,775
Change in reporting unamortized bond issuance expense	<u>(848,295)</u>
Net position balance beginning of year as restated	<u><u>\$ 387,483,480</u></u>

NOTE 3: CASH AND CASH EQUIVALENTS AND INVESTMENTS

The following information is provided with respect to the University's cash, cash equivalents, and investments as of June 30, 2014. The following risk disclosures are required by GASB Statement 40, *Deposit and Investment Risk Disclosures*:

Custodial Credit Risk (Category 3 deposits and investments) - The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The University is not exposed to custodial credit risk at June 30, 2014.

Credit risk - The risk that an issuer or other counterparty to an investment will not fulfill its obligations. GASB Statement 40 requires the disclosure of the credit quality rating on any investments subject to credit risk. The University does not have a credit rate risk policy. The University's portfolio can be characterized as having minimal exposure to credit risk as indicated by the majority of credit ratings being A- or better.

Concentration of credit risk - The risk of loss attributed to the magnitude of a government's investment in a single issuer of fixed income securities. The University does not have a concentration of credit risk policy. As of June 30, 2014, the University does not have investments in any one issuer (excluding investments issued or explicitly guaranteed by the U.S. government and mutual fund or pool investments) representing 5 percent or more of its total investments.

Interest rate risk - The risk that changes in interest rates will adversely affect the fair value of an investment. GASB Statement 40 requires disclosure of maturities for any investments subject to interest rate risk. None of the University's investments are considered highly sensitive to changes in interest rates. The University does not have an interest rate risk policy. Interest rate information was organized by investment type and amount using segmented time distribution method and weighted average maturity.

Foreign currency risk - The risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The University has no foreign deposits but does have foreign investments for June 30, 2014. The foreign investments are traded in U.S. dollars and the risk is considered to be low. The University does not have a foreign currency risk policy.

Cash and Cash Equivalents

Pursuant to Section 2.2-1800, et seq., Code of Virginia, all state funds of the University are maintained by the Treasurer of Virginia who is responsible for the collection, disbursement, custody, and investment of state funds. Cash deposits held by the University are maintained in accounts that are collateralized in accordance with the Virginia Security for Public Deposits Act, Section 2.2-4400, et seq., Code of Virginia. Cash and cash equivalents represent cash with the treasurer, cash on hand, certificates of deposit and temporary investments with original maturities of 90 days or less, and cash equivalents with the Virginia State Non-Arbitrage Program (SNAP). SNAP is an open-end management investment company registered with the Securities and Exchange Commission (SEC). Cash and cash equivalents reporting requirements are defined by GASB Statement 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities that Use Proprietary Fund Accounting*.

Deposits

At June 30, 2014, the carrying value of the University's deposit with banks was \$47,560,328 and the bank balance was \$47,862,837. The carrying value of deposits differs from the bank balance because of reconciling items such as deposits in transit and outstanding checks. The deposits of the University are secured in accordance with the provisions of the Virginia Security for Public Deposits Act, Section 2.2-400 of the *Code of Virginia*. The act requires any public depository that receives or holds public deposits to pledge collateral to the Treasury Board to cover public deposits in excess of Federal deposit insurance. The required collateral percentage is determined by the Treasury Board and ranges from 50.0 percent to 100.0 for financial institutions choosing the pooled method of collateralization, and from 105.0 percent to 130.0 percent for financial institutions choosing the dedicated method of collateralization. At June 30, 2014, the University's deposits were not exposed to custodial credit risk.

Investments

The investment policy of the University is established by the Board of Visitors and monitored by the Board's Administration and Finance Committee. Authorized investments are set forth in the Investment of Public Funds Act, Section 2.2-4500 through 2.2-4516, et seq., Code of Virginia. Authorized investments include: U.S. Treasury and agency securities, municipal securities, corporate debt securities of domestic corporations, agency mortgage-backed securities, negotiable certificates of deposit, repurchase agreements, common and preferred equities, equity in land, and mutual and money market funds.

Investments fall into two groups: short- and long-term. Short-term investments have an original maturity of over 90 days but less than or equal to one year. Long-term investments have an original maturity greater than one year.

Security Lending Transactions

The University participates in the State Treasury's securities lending program. Collateral held for security lending transactions of \$4,679,092 represents the University's allocated share of cash collateral received and reinvested and securities received by the State Treasury securities lending program. Information related to the credit risk of these investments and the State Treasury's securities lending program is available on a statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report (CAFR).

The Commonwealth's policy is to record unrealized gains and losses in the General Fund in the Commonwealth's basic financial statements. When gains or losses are realized, the actual gains and losses are recorded by the affected agencies.

NOTE 4: DONOR RESTRICTED ENDOWMENT

Investments of the University's endowment funds are pooled and consist primarily of gifts and bequests, the use of which is restricted by donor imposed limitations.

The Uniform Prudent Management of Institutional Funds Act, Code of Virginia Section 55-268.1 et. seq., permits the spending policy adopted by the Board of Visitors to appropriate an amount of realized and unrealized endowment appreciation as the Board determines to be prudent. In determining the amount of appreciation to appropriate, the Board is required by the Act to consider such factors as long-term and short-term needs of the institution, present and anticipated financial requirements, expected total return on investments, price level trends, and general economic conditions. The amount available for spending is determined by applying a predetermined rate to the twelve-quarter moving average of the market value of each endowment for the period ending on the previous September 30. For fiscal year 2014, the payout percentage was 4.3 percent. The payout percentage is reviewed and adjusted annually as deemed prudent.

At June 30, 2014, net appreciation of \$616,842 is available to be spent, which is reported in the Statement of Net Position as Restricted for Expendable Scholarships and Fellowships.

NOTE 5: ACCOUNTS RECEIVABLE

A. Accounts receivable consisted of the following at June 30, 2014:

Student tuition and fees	\$ 8,793,826
Auxiliary enterprises	2,726,730
Federal, state, and nongovernmental grants and contracts	2,522,190
Other activities	1,134,461
Gross receivables	<u>15,177,207</u>
Less allowance for doubtful accounts	<u>(1,350,454)</u>
Net accounts receivable	<u><u>\$ 13,826,753</u></u>

B. Due from the Commonwealth consisted of the following at June 30, 2014:

Equipment trust fund reimbursement	\$ 1,445,851
Virginia College Building Authority 21 st Century Bonds	<u>3,984,077</u>
Total due from Commonwealth of Virginia	<u><u>\$ 5,429,928</u></u>

NOTE 6: CAPITAL ASSETS

A summary of changes in the various capital asset categories for the year ending June 30, 2014 is presented as follows:

	Beginning Balance	Additions	Reductions	Ending Balance
Nondepreciable capital assets:				
Land	\$ 31,064,762	\$ 189,732	\$ -	\$ 31,254,494

NOTE 7: ACCOUNTS PAYABLE AND ACCRUED EXPENSES

Accounts payable and accrued expenses consisted of the following at June 30, 2014:

Employee salaries, wages, and fringe benefits payable	\$ 17,215,566
Retainage payable	714,107
Interest payable	2,000,582
Vendors and suppliers accounts payable	17,297,626
Current liabilities - accounts payable and accrued expenses	<u>\$ 37,227,881</u>

NOTE 8: NONCURRENT LIABILITIES

The University's noncurrent liabilities consist of long-term debt (further described in Note 9) and other noncurrent liabilities. A summary of changes in noncurrent liabilities for the year ending June 30, 2014 is presented as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Current Portion
Long-term debt:					
General obligation bonds **	\$ 62,053,822	\$ -	\$ 2,801,963	\$ 59,251,859	\$ 3,133,762
Revenue bonds **	129,705,099	-	8,758,891	120,946,208	8,450,000
Installment purchases	1,917,881	1,439,741	1,746,961	1,610,661	297,812
Capital leases	67,035,655	211,565	2,657,325	64,589,895	2,394,140
Total long-term debt	260,712,457	1,651,306	15,965,140	246,398,623	14,275,714
Accrued compensated absences	7,545,335	7,027,314	6,659,536	7,913,113	5,609,615
Federal loan program contributions	126,727	121,211	-	247,938	-
Other liabilities	363,000	-	60,500	302,500	60,500
Total long-term liabilities	\$ 268,747,519	\$ 8,799,831	\$ 22,685,176	\$ 254,862,174	\$ 19,945,829

** Beginning balances were restated to reclassify deferral of debt defeasance amounts which are no longer netted with long-term liabilities in accordance with GASB Statement 65.

NOTE 9: LONG-TERM DEBT

The University has issued two categories of bonds pursuant to Section 9 of Article X of the *Constitution of Virginia*. Section 9(c) bonds are general obligation bonds issued by the Commonwealth of Virginia on behalf of the University which are secured by the net revenues of the completed project and the full faith, credit, and taxing power of the Commonwealth of Virginia. Section 9(d) bonds are revenue bonds, which are limited obligations of the University payable exclusively from pledged general revenues and are not debt of the Commonwealth of Virginia, legally, morally, or otherwise. Pledged General Fund revenues include General Fund appropriations, tuition and fees, auxiliary enterprise revenues, and other revenues not required by law to be used for another purpose. The University issued 9(d) bonds directly through underwriters and also participates in the Public Higher Education Financing Program (Pooled Bond Program) created by the Virginia General Assembly in 1996. Through the Pooled Bond Program, the Virginia College Building Authority (VCBA) also issues 9(d) bonds and uses the proceeds to purchase debt obligations (notes) of the University and various other institutions of higher education. The University's general revenue, not otherwise obligated, also secures these notes.

Total	<u><u>\$ 234,556,581</u></u>	<u><u>\$ 82,929,631</u></u>

A. Equipment Trust Fund Program

The Equipment Trust Fund (ETF) program was established to provide state-supported institutions of higher education bond proceeds for financing the acquisition and replacement of instructional and research equipment. The Virginia College Building Authority (VCBA) manages the program. The VCBA issues bonds and uses the proceeds to reimburse the University and other institutions of higher education for equipment purchased. Financing agreements for ETF state that the University owns the equipment from the date of purchase.

The Statement of Net Position line "Due from the Commonwealth" includes \$1,445,851 for equipment purchased by the University that was not reimbursed by the VCBA at year-end.

B. Defeasance of Debt

The Commonwealth of Virginia, on behalf of the University, issued bonds in previous fiscal years for which the proceeds were deposited into an irrevocable trust with an escrow agent to provide for all future debt service on the refunded bonds. Accordingly, the trust account assets and the related liability for the defeased bonds are not reflected in the University's financial statements. At June 30, 2014, \$36,460,000 of the defeased bonds was outstanding.

C. Assets Purchased Under Capital Leases

At June 30, 2014, assets purchased under capital leases were included in depreciable capital assets in the amount of \$66,817,107. The assets are net of accumulated depreciation.

NOTE 10: EXPENSES BY NATURAL CLASSIFICATIONS

The following table shows a classification of expenses both by function as listed in the Statement of Revenues, Expenses and Changes in Net Position and by natural classification which is the basis for amounts shown in the Statement of Cash Flows.

	Salaries, Wages, and Fringe Benefits	Non-Personal Services/ Supplies	Scholarships and Fellowships	Plant and Equipment	Depreciation	Total
Instruction	\$ 129,781,535	\$ 11,050,250	\$ -	\$ 4,062,868	\$ -	\$ 144,894,653
Research	6,335,968	2,756,938	-	467,694	-	9,560,600
Public service	216,948	438,702	-	6,981	-	662,631

Scholarship and related expenses	-	-	19,077,377	-	-	19,077,377
Auxiliary activities	27,200,063	49,700,328	8,602,016	3,331,588	-	88,833,995
Total	\$ 238,007,864	\$ 95,956,547	\$ 27,679,393	\$ 15,906,126	\$ 23,008,283	\$ 400,558,213

NOTE 11: STATE APPROPRIATIONS

The University receives state appropriations from the General Fund of the Commonwealth. The Appropriation Act specifies that such unexpended appropriations shall revert, as specifically provided by the General Assembly, at the end of the biennium. For years ending at the middle of a biennium, unexpended appropriations that have not been approved for reappropriation in the next year by the Governor become part of the General Fund of the Commonwealth and are, therefore, no longer available to the University for disbursements.

The following is a summary of state appropriations received by the University, including all supplemental appropriations and reversions:

Original legislative appropriation per Chapter 806:	
Educational and general programs	\$ 103,809,827
Student financial assistance/grants	19,272,252
Supplemental adjustments:	
Central fund transfers - compensation and benefits	4,290,218
Grants	4,015,479
The Virtual Library of Virginia (VIVA)	23,163
Adjusted appropriations	<u>\$ 131,410,939</u>

NOTE 12: COMPONENT UNIT FINANCIAL INFORMATION

The University's component units are presented in the aggregate on the face of the financial statements. Below is a condensed summary of each foundation and the corresponding footnotes. The University has three component units - Old Dominion Athletic Foundation, Old Dominion University Educational and Real Estate Foundations, and the Old Dominion University Research Foundation. These organizations are separately incorporated entities and other auditors examine the related financial statements.

Other Significant Transactions with Old Dominion University

The University has entered into various Deed of Lease Agreements with Old Dominion University Real Estate Foundation. Under the agreements as of June 30, 2014, the University will repay \$64,589,896. At the expiration of the lease terms, the Old Dominion University Real Estate Foundation shall transfer the projects to the University. As such, the University has recorded capital leases relating to these lease agreements.

Direct payments to the University from the Old Dominion University Educational and Real Estate Foundations, Old Dominion Athletic Foundation, and the Old Dominion University Research Foundation for the year ended June 30, 2014 totaled \$9,146,152, \$2,561,869, and \$7,511,226 respectively. This includes gift transfers, payments for facilities, and services.

Component Unit Contingencies

The Real Estate Foundation was working with the Norfolk Redevelopment and Housing Authority (NRHA) to condemn properties for the furtherance of University activities in accordance with the University Master Plan approved by the City of Norfolk. In 1998, NRHA determined that these properties were in a blighted area and a redevelopment district was created by the Authority. The condemnation cases were filed in two phases (2008 and 2010). NRHA's redevelopment plan was challenged by two property owners in a 2009 court case. The Circuit Court reaffirmed the plan. An appeal was filed with the Supreme Court of Virginia. The Supreme Court reaffirmed the Circuit Court's ruling. Two property owners appealed the validity of the redevelopment plan with the Supreme Court of Virginia. Another property owner missed the deadline to appeal but indicated a

desire to do so. In September 2013, the court ruled in favor of one of the property owners. Based on this decision, negotiations with all three property owners began for the return of the property and/or for reimbursement to them for related costs. One settlement finalized in February 2014, and the remaining two settled in May 2014. Amounts for these settlement costs were accrued as of December 31, 2013. Due to the nature of the negotiations, those amounts are not disclosed. The capitalized acquisition costs for all three properties have been written off as of December 31, 2013.

The University's Athletic Development Office has and continues to solicit donations for the purpose of funding the construction of a new Basketball Practice Facility. The projected cost of the facility is \$8,400,000. As of December 31, 2013, gifts and pledges equaling approximately \$4,700,000 were recorded toward the projected goal of \$8,400,000. In order to accelerate the construction of the facility, the Foundation Board authorized funding of up to \$3,700,000 for the Facility pending completion of the fundraising campaign. This amount has been presented as board-designated in the financial statements.

In June 2011, the Research Foundation received from the United States Department of Justice a Civil Investigative Demand "CID" for certain records of the Foundation. The CID stated that the demand for records was related to the allegations that the Foundation submitted false claims to federal agencies in connection with billings for salaries, expenses, and costs on various research grants. The Foundation retained counsel and cooperated with the Justice Department's investigation and provided all documents requested. It was later learned that a Qui Tam lawsuit was filed and the U.S. was requested to join or participate in that suit. After reviewing the document and certain legal briefs and responses filed by the Foundation, the Justice Department elected to not pursue either the litigation or any claim for penalties or settlement with the Foundation. Subsequently the Qui Tam plaintiff voluntarily dismissed the pending lawsuit (under seal). To the Foundation's knowledge, there are no further pending legal actions or investigations of this matter, and the Foundation's position that it followed the regulation and billed properly has been accepted by the Government.

Component Unit Subsequent Event

In February 2014, the Real Estate Foundation extended the line of credit in the amount of \$10,000,000 for the purpose of purchasing additional properties for future projects. Principal on this Note matures and is payable on August 27, 2015. The interest rate is 1-month LIBOR plus 1.75%, and terms include an unused commitment fee of 0.25% per annum.

In March 2014, the Real Estate Foundation entered into agreements with the Tri-Cities New Market Investment Fund LLC (Fund) and US Bancorp Community Development Corporation to exercise its right under the agreement from 2007 to purchase the Fund's interest for \$1,000.

NOTE 13: COMMITMENTS

At June 30, 2014, the University was a party to construction and other contracts totaling approximately \$32,535,083 of which \$27,586,160 has been incurred.

The University is committed under various operating leases for equipment and space. In general, the equipment leases and the space leases are for varying terms with appropriate renewal options for each type of lease. In most cases, the University expects that in the normal course of business, similar leases will replace these leases. Rental expense was approximately \$7,920,618 for the year ended June 30, 2014.

The University has, as of June 30, 2014, the following future minimum rental payments due under the above leases:

<u>Year Ending June 30</u>	<u>Operating Lease Obligation</u>
2015	\$ 7,170,314
2016	6,080,485
2017	5,998,138
2018	5,985,867
2019	5,328,646
2020-2024	22,112,695
2025-2029	<u>1,739,707</u>
Total	<u><u>\$ 54,415,852</u></u>

NOTE 14: RETIREMENT PLANS

A. Virginia Retirement System

Employees of the University are employees of the Commonwealth of Virginia. Substantially, all full-time classified salaried employees of the University participate in a defined benefit retirement plan administered by the Virginia Retirement System (VRS). VRS is an agent multiple-employer public employee retirement system that acts as a common investment and administrative agency for the Commonwealth of Virginia and its political subdivisions.

The VRS does not measure assets and pension benefit obligations separately for individual state institutions. Information related to the plan is available at the statewide level only and can be found in the Commonwealth of Virginia's *Comprehensive Annual Financial Report* (CAFR). The Commonwealth, not the University, has the overall responsibility for contributions to this plan. The CAFR provides disclosure of the Commonwealth's unfunded pension benefit obligation at June 30, 2014. The same report contains historical trend information showing VRS's progress in accumulating sufficient assets to pay benefits when due.

The University's expenses include the amount assessed by the Commonwealth for contributions to VRS, which totaled approximately \$6,873,549 for the year ended June 30, 2014. The retirement contribution rate was 8.76% for state employees and 14.80% for Virginia Law Officers' Retirement System (VaLORS) for fiscal year 2014. Contributions to VRS were calculated using the base salary amount of approximately \$77,231,775 for the year ended June 30, 2014. The University's total payroll was approximately \$188,298,134 for the fiscal year ended June 30, 2014.

B. Optional Retirement Plan

Full-time faculty and certain administrative staff participate in a defined contribution plan administered by two different providers rather than VRS. The two different providers are TIAA/CREF Insurance Companies and Fidelity Investment Tax-Exempt Services. These plans are fixed contribution programs where the retirement benefits received are based upon the employer (5.4%) and employee (5%) contributions (all of which are paid by the University for faculty hired before July 1, 2010) plus interest and dividends. For faculty hired on or after July 1, 2010, the 5% employee contribution is paid by the employee, and the employer contribution, paid by the University is 8.5%.

Individual contracts issued under the plans provide for full immediate vesting of both the University's and employee's contributions. Total pension costs under these plans were approximately \$6,828,156 for the year ended June 30, 2014. Contributions to the optional retirement plans were calculated using the base salary amount of approximately \$69,018,522 for fiscal year 2014.

C. Deferred Compensation

Employees of the University are employees of the Commonwealth of Virginia. State employees may participate in the Commonwealth's Deferred Compensation Plan. Participating employees can contribute to the plan each pay period with the Commonwealth matching up to \$20 per pay period. The dollar amount match can change depending on the funding available in the Commonwealth's budget. The Deferred Compensation Plan is a qualified defined contribution plan under section 401(a) of the Internal Revenue Code. Employer contributions under the Deferred Compensation Plan were approximately \$614,929 for fiscal year 2014.

NOTE 15: POST-EMPLOYMENT BENEFITS

The Commonwealth participates in the VRS administered statewide group life insurance program which provides post-employment life insurance benefits to eligible retired and terminated employees. The Commonwealth also provides health care credits against the monthly health insurance premiums of its retirees who have at least 15 years of State service and participate in the State's health plan. Information related to these plans is available at the statewide level in the Commonwealth's *Comprehensive Annual Financial Report*.

NOTE 16: CONTINGENCIES

Grants and Contracts

The University has received grants for specific purposes that are subject to review and audit by the grantor agencies. Claims against these resources are generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditures of resources for allowable purposes. Any disallowance resulting from a federal audit may become a liability of the University.

In addition, the University is required to comply with the various federal regulations issued by the Office of Management and Budget. Failure to comply with certain system requirements of these regulations may result in questions concerning the allowability of related direct and indirect charges pursuant to such agreements. As of June 30, 2014, the University estimates that no material liabilities will result from such audits or questions.

Litigation

The University is a party to various litigations. While the final outcome cannot be determined at this time, management is of the opinion that any ultimate liability to which the University may be exposed, if any, for these legal actions will not have a material effect on the University's financial position.

NOTE 17: RISK MANAGEMENT AND EMPLOYEE HEALTH CARE PLANS

The University is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The University participates in insurance plans maintained by the Commonwealth of Virginia. The state employee health care and worker's compensation plans are administered by the Department of Human Resource Management and the risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, medical malpractice, faithful performance of duty bond, automobile, and air and watercraft plans. The University pays premiums to each of these Departments for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth's *Comprehensive Annual Financial Report*.

NOTE 18: SUBSEQUENT EVENT

On November 13, 2014, the Virginia College Building Authority (VCBA) issued bonds which the University received \$26,495,000 from Educational Facilities Revenue Bonds, Series 2014A, and \$23,525,000 from Educational Facilities Revenue Refunding Bonds, Series 2014B under the Public Higher Education Financing Program (the Pool Program). The University will use the proceeds from the Series 2014A Bonds for construction of a new dining facility, Powhatan expansion, and Webb Center replacement. The University will use the Series 2014B Bonds to refund certain prior VCBA Bonds issued under the Pool Program.

On May 6, 2015, the Treasury Board completed the sale of 9(c) General Obligation Refunding Bonds, Series 2015B, which the University received \$26,900,433. The University will use the bonds to refund certain prior General Obligation Bonds, Series 2007B and 2008B.

INDEPENDENT AUDITOR'S REPORT

Report on Financial Statements

We have audited the accompanying financial statements of the business-type activities and aggregate discretely presented component units of Old Dominion University, a component unit of the Commonwealth of Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the aggregate discretely presented component units of the University, which are discussed in Note 1. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the component units of the University, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Old Dominion University Educational and Real Estate Foundations and the Old Dominion Athletic Foundation that were audited by other auditors upon whose reports we are relying were audited in accordance with auditing standards generally accepted in the United States of America, but not in accordance with Government Auditing Standards.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our audit opinions.

Opinion

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities and aggregate discretely presented component units of Old Dominion University as of June 30, 2014, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, the University adopted Governmental Accounting Standards Board (GASB) Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages three through nine be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 16, 2015, on our consideration of Old Dominion University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the University's internal control over financial reporting and compliance.
